

All colors are Alcohol based. Some colors will separate when not in use.

To get the best application shake the product well before each use. The stars indicate which colors may need a more vigorous shake.

Products which have a 4 - 5 star listing would be better kept upside down 6 hours or overnight before use.

Some colors are condensed and we would recommend mixing with 1 part rubbing alcohol and 3 parts Colorini 10-25%.

The product can be removed with rubbing alcohol but will also fade away within a couple of days if left.

May stain clothing and fabrics.

To be applied by a competent person, not suitable for under 3's, sensitive skin / areas and not advised above shoulder height.

Developed using some FDA approved ingredients.

How well to shake	name	
★	Pure black
